Recommendation Letter for Chancenkarte

To whom it may concern

I am writing to offer my highest recommendation for Nezar Zakout, holder of Passport number 6245098, who is applying for the Chancenkarte.

I am the CTO at Bayzat. Nezar has been an employee of Bayzat since September 2025 and a valuable member of my team.

Bayzat is a technology company and AI-powered work-life platform empowering companies to create a remarkable workplace by supercharging people, processes, and payments. Bayzat provides HR, payroll, insurance, and employee benefits solutions across the UAE and GCC, helping businesses manage their workforce and deliver outstanding employee experiences.

Nezar is one of the most talented and optimistic engineers I have worked with. He has a can-do attitude and never shies away from jumping into the waters and learning and doing new things. He is always ahead of the curve, with outstanding people skills and technical knowledge. We are very lucky to have Nezar on the team and look forward to achieving great things together.

Nezar is an AI Engineer with strong expertise in web development, specializing in React, Next.js, and Node.js. He is an agile methodologies enthusiast with solid experience in cloud solutions.

A critical part of our work is building and scaling our platform to deliver a seamless experience to our customers. Nezar led the design and development of key product features from start to finish, building robust full-stack applications with React and Next.js on the frontend and Node.js on the backend, and deploying scalable solutions on the cloud. His work resulted in highly efficient, reliable systems that significantly improved operational efficiency and the quality of our product. His leadership in these projects was exceptional and demonstrated his ability to handle complex technical challenges and drive positive outcomes.

Nezar's technical expertise, strategic mindset, and passion for building great software are qualities that will make him a tremendous asset wherever he chooses to apply his skills. I am confident that he will thrive in any challenging environment and continue to make a significant impact. He is an exemplary candidate for the Chancenkarte.

Please contact me at any time if you require further information. I fully support Nezar's application.

Sincerely,

Ahmed Abdelrahman

Chief Technology Officer (CTO)
